

URGENT INFORMATION

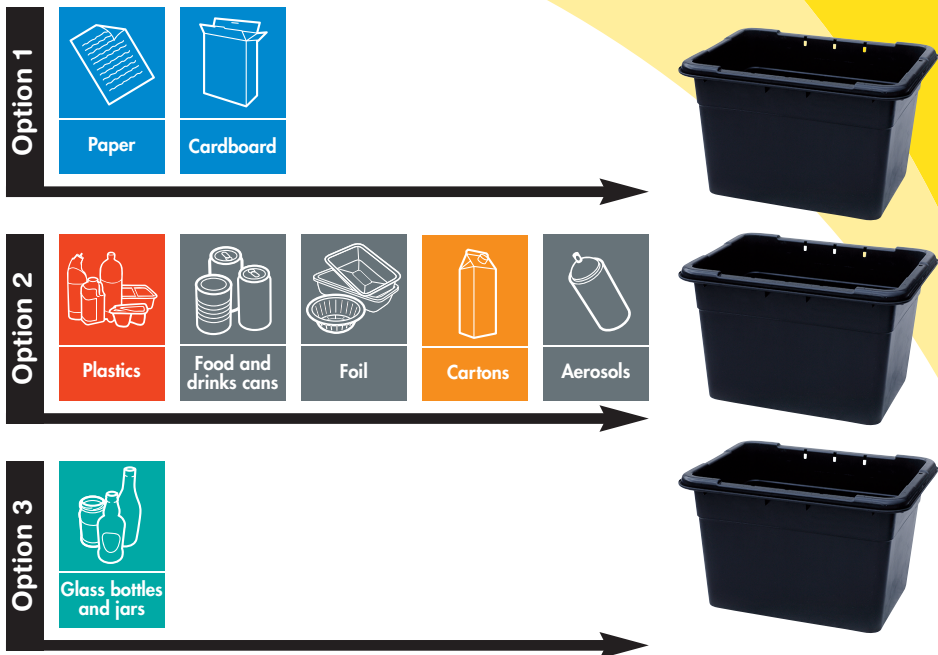

COVID-19 TEMPORARY COLLECTION MEASURES

Bryson Recycling are trying to keep the service for the collection of recycling operating for as long as possible. **We need your help.**

In order to reduce the hand sorting of materials by our staff can you please temporarily sort your recycling materials in the following way:

ONLY these materials can go in each box:

If materials are not sorted in this way, boxes will not be emptied.

If you only have 1 or 2 boxes please rotate the materials you present each week, for example put out paper and cardboard one week, and glass the next week.

While these temporary changes are in place it doesn't matter what colour of box you put your recyclables in.

Sorry, but we can't collect batteries, textiles or hand tools at this time.

Overflow bags will not be accepted at this time.

Help us protect our staff, your neighbours, and your family by taking the following steps:

- Please **wash hands before and after** leaving your recycling out and taking your boxes back in.
- Please **wash your hands before and after putting items** in your boxes.
- Please **disinfect the handles/rim**s of your boxes before and after putting out your recycling.
- If anyone in your house has symptoms of COVID-19, please **avoid putting boxes out for 72 hours** after the two week self-isolation period.
- **Do not put recycling out while you are self-isolating.**
- Boxes containing tissues will not be emptied. Please remove tissues and we will empty on your next collection day.

Thank you for your help and co-operation at this time.

The logo for Bryson Recycling features the word "Bryson" in a serif font with a yellow arc above the letter "y", and the word "Recycling" in a sans-serif font below it.
